

**FAB LABS NATION**

**PARTNERSHIP AND  
SPONSORSHIP PLAN**

# ■ The Context

A true international community gravitates around Fab Labs, through the implementation of laboratories in hundreds of cities and villages. The resulting potential for economic and social development is constantly increasing and is being explored in multiple sectors: health, culture, creativity, education, entrepreneurship, etc.

A Fab Lab is a laboratory of collaborative innovation, an innovation accelerator equipped with digital manufacturing machine-tools (3D printer, laser cutting, digital milling machine, etc.) where engineers, inventors, creators and all those who have an entrepreneurial project gather to move from idea to object.

Fab Labs are the embodiment of a bold vision of the future:

- Modes of design and production for material objects
- Skills and knowledge sharing
- Skills development and Maker abilities

This Canadian initiative hopes to contribute to the emergence of a national Fab Lab network, entirely connected to the world and adapted to the specificities of its different regions.

# ■ The Project

The first step of the project will be a tour across Canada with a caravan, in order to meet the different canadian actors of the Fab Labs community.

This initiative aims to :

- Gather structuring partners around Fab Labs implementation.
- Structure and organize the offer around the experience of sharing, complementarity and reciprocity
- Operationalize Canada's Fab Labs Network.

In order to support the model change of scale, we invite you to become co-promoter, partner, teammate or participant of this great project.

“ Fab Labs Nation proposes a concerted strategy to equip Canada with a true digital manufacturing interstructure to create more resilient communities ”

# ■ The Partners

Fab Labs Nation aims to mobilize co-promoters and partners in order to create the ideal conditions for emerging Fab Labs in Canada. The purpose of this networking initiative is to scale up social innovation and to attain a sustainable national interstructure.

## Level of Partnership

	Being the guarantor of the process and funding	Formally support and contribute to resources	Help out with the activities	Participate in activities
Co-promoter (Organizations)				
Partner (Organizations)				
Teammate (Persons/ Organizations)				
Participant (Persons/ Organizations)				

# ■ The Sponsors

Main partner	Prestige partner	Providing partner
		
		
<ul style="list-style-type: none"><li>✓ Association of your business with the event name</li><li>✓ Participation in an activity of your choice</li><li>✓ Mention of your business name in the press release</li><li>✓ Visibility and advantages of the prestige partners</li></ul>	<ul style="list-style-type: none"><li>✓ Preferred location for your business logo</li><li>✓ Your logo on our official clothes</li><li>✓ Your logo on promotional material</li><li>✓ Visibility and advantages of providing partner</li></ul>	<ul style="list-style-type: none"><li>✓ The value of the sponsorship is equal to the cost of goods and services offered</li><li>✓ Your logo with a hyperlink on our website</li><li>✓ Possibility to distribute a document or a promotional object of your business</li><li>✓ Special thanks on our website and social medias</li></ul>

In order to ensure the caravan's efficient promotion, a communications team will be dedicated to the production of different material every day, from April to August 2017 (videos, press releases, social media) and will implement a powerful public relations strategy.

We are also open to your propositions.
